ROBERT J.'S WORLD RECORD IS EQUALED BY THE FORMER.

First of a Series of Three Match Races Between the Two Great Stallions-Gentry Won in Straight Hents-Other Sport.

Glens Falls, N. Y., Sept. 10.-The first of the series of three races between the great pacing stallions, John R. Gentry (2:63%) and Star Pointer (2:0P4) for a purse of \$5,000, with \$500 added by the association should the track record of 2:03 be beaten, took place to-day on the track of the Northern New York Trotting Horse Breed. ers' Association, at Giens Falls, Last week at Fleetwood John R. Gentry lowered the colors of Robert J., Frank Agan and Star Pointer, winning the most remarkable harness race on record, pacing the fastest three consecutive miles known. Today the same handsome stallion equaled the world's record, made by Robert J., at Terre Haute two years ago, going a mile and winning the heat by almost a full length in 2:01½. The average time of the three heats of to-day's race was just one-quarter of a second slower than the world's record made at Fleetwood last week.

This match brought out upwards of 7,999 people. The horses were in the pink of condition and looked right to make the race of their lives.

This match brought out upwards of 7,699 people. The horses were in the pink of condition and looked right to make the race of their lives.

Shortly before 2:39 the first heat of the big event was called. Gentry came first on the track and received an ovation as he passed the grand stand. Star Pointer followed quickly and was equally well received. The pools were selling 1 to 2 on John R. Gentry and 6 to 5 on Star Pointer. They closed at 5 to 2 on Gentry.

They closed at 5 to 2 on Gentry. They were given the word on the sec ond score. Star Pointer had the pole. They started very level and held the position from the wire to the half mile pole, with Gentry at Star Pointer's saddle. Andrews let out a loop and Gentry closed up the distance, but a moment later went back to Star Pointer's seat. As they sped around into the home stretch the stallions were as if in one harness. Then, with a furious drive, the Fleetwood record holder pushed his nose ahead and won the heat in 2:03%.

The second heat was called at 4 o'clock. At that time quite a breeze was blowing and this seemed to dampen all hopes of a record breaking performance. The horses were given the word on the first score and a more magnificent race was never witnessed. They went along as one horse to the five-eighths' pole, when Star Pointer, who was on the outside, straining every muscle, managed to show his head in front. Into the stretch they came, and as Andrews shook up his horse, John R. Gentry with a wonderful burst of speed flew past his rival, passing under the wire a full length in front, with a world's record to his account of 2:00%.

Every person in the vast assemblage went wild, for it seemed, even before the time was posted, that a record had gone down. After such a wonderful performance, the third heat proved somewhat of a disappointment. They got off in the first heat neck and neck. Star Pointer went back to Gentry's wheel. He closed again to the stretch, when Andrews again made his drive and Gentry took the third heat in 2:05%.

in 2:05%.

In the 2:27 class Armetta won in two straight heats. There were four heats in the 2:17 class, Quality taking the second and fourth and the race.

Sharkey fight, or in the same ring, or at any place within a reasonable time after that fight.

When Corbett was notified to-night at Asbury Park of Fitzsimmons' challenge, he simply laughed and said: "Fitzsimmons is birfing again. I chased him nearly two years to get him to fight. Now that I am to fight Sharkey he issues a challenge. I am going to accept it. I will fight him twenty minutes after Sharkey leaves the ring. I am positive, however, that Fitzsimmons will never enter the ring with me. He has refused so many propositions from me that he shows he does not want to fight me, and is only bluffing. His bluff is called."

FEDERAL COURT STOPS THE SEA-BOARD-SOUTHERN RATE WAR.

Railroad Men Discuss the Plans of the Chicago Great Western-Passenger Rates Here Have Not Been Demoralized.

Atlanta, Ga., Sept. 10.-United States Judge Emory Speer, of the Southern district of Georgia, has granted a mandatory injunction against the Seaboard Air Line the Southern and all other roads in the Southern States Freight Association, com-manding them to restore the rates that were in existence on September 5. He ordered the old standard tariffs restored in

dered the old standard tariffs restored in the Fifth judicial circuit. The usual order was passed allowing the roads ten days within which to ask for a modification of the injunction or show cause why the injunction should not be made permanent.

Judge Speer signed the order this morning at Mount Ayry, and the injunction dates from this day.

The petition was brought by Hon. Joseph R. Lamar, of Augusta, at the instance of the Wholesale Grocers' Association of Augusta, as attorneys for them.

It will take ten days to restore the rates, as under the interstate commerce law it takes ten days to raise or restore a rate. What the roads will do in the next ten days is unknown. Before the rate is actually restored they may move a modification of the order or ask that the injunction be dissolved.

PRESIDENT STICKNEY'S PLANS.

They Are Freely Discussed by Traffic Men All Over the Country.

Omaha Neb., Sept. 10.-The announce-Omaha, Neb., Sept. 10.—The announcement of the intention of President A. B. Stickney, of the Chicago Great Western read, to build a series of grain elevators throughout the West, published yesterday, caused considerable discussion among local rallway men. While nearly all who commented on the matter viewed it increduously, there was a general sentiment that whatever new scheme President Stickney was likely to spring on the rallway world at any moment could never be foretold, and that there might be some foundation for the story of his latest move. Ever since he made the startling statements regarding the operations of railroads before the interstate commission the officials of other reads have regarded him with something akin to awe, and are not inclined to comment on the report that he will build a series of grain elevators hereabouts through the aid of European capital.

Freight Traffic Manager Munroe, of the Union Pacific, said he thought if Mr. Stickney had \$5,000,000 to spend he could now buy all the grain elevators he wanted at very low figures. He said, however, that the prevailing tendency among railreads to-day was to do away with grain elevators at all intermediate points, the shipments being made directly from the points of origin to Chicago and other points of destination. Still, if the Chicago Great Western road wanted elevators at intermediate points it could probably buy them cheap now, certainly for less money than it could build them. ment of the intention of President A. There is great activity about the Karnival Krewe headquarters in the New York Life building these days, and preparations for the great autumnal festivities in October are progressing at a lively rate.

for the great autumnal festivities in October are progressing at a lively rate.

The ladies desire to correct the impression that a special invitation is necessary to participate in the parade. Such is not the case, but a general invitation is extended to everyone possessing a nice horse or rig to participate.

Application blanks are now ready at room 101, New York Life building, where they may be obtained. Entries both in the parade proper and the business division are coming in rapidly and the parade promises to exceed anything of the kind ever seen in the United States. The ladies are all enthusiastic and every meeting develops some new beauties to be added to the parade.

A feature this year will be the large number of fine floats.

The directors of the Karnival Krewe are also the busiest men in town now, for the parade on Thursday afternoon, October 8, as well as the flower parade, is assuming mammoth proportions,

Yesterday a register was opened at the Krewe headquarters and it is desired that all persons who will have either rooms or board carnival week send in their names, addresses, with also number of people they can accommodate, at once. Traveling men from all directions bring in every day reports of the great crowds that are coming to Kansas City carnival week and the Krewe feels that Kansas Cityans must open wide the doors and their homes in order that all may be accommodated.

WORKS A HARDSHP

A mail Per Cent of Medical Special Control of the first first work have been ha their diplomas and then return to Missouri to practice.

"The new rule will probably drive 500 students from the state and 150 from Kansas City. This means a loss to the city as well as to the colleges, as will readily be seen when it is recalled that in a single year the students of the various medical, dental and veterinary colleges have expended in the city the sum of \$250,000.

"Foreseeing these results of the board's ruling, representatives of a majority of the medical colleges held a meeting in St. Louis in June, where resolutions were passed requesting the board of health to allow the medical colleges of the state to establish departments of Latin and physics so that students could acquire a knowledge of these branches necessary for the study of the profession. They further requested the state board of health to postpone examinations in Latin and physics until the beginning of next year's session. "Both of these requests were refused by the board.

"The schools in asking this were asking only that which is granted by all other medical colleges of the United States with the exception of two or three. I regard the ruling as extremely arbitrary.

"Prospective students were given no opportunity to prepare for this new condition, as our catalogues were not issued until July."

The examinations just closed were conducted by Professor John R. Kirk, state superintendent of public schools. A literary examination of applicants for admission to medical colleges will be conducted in this city September 19 and 20. Professor Buchanan, of the public schools, will preside over the examinations and the grading will afterward be done by Professor Minckwitz, Thompson and Ridgeway.

VACATION WILL SOON END.

PUBLIC SCHOOLS OF THE CITY WILL REOPEN NEXT MONDAY.

> largest Enrollment of Pupils Ever Known in Their History-Forty Rooms Added to the Buildings-List of Teachers.

The public schools of this city will open next Monday morning with the largest enrollment of pupils in their history. Last year most of the ward schools were taxed to their utmost to accommodate the large number of pupils, and knowing that the at tendance for this year would be still larger, the board of education has had forty new rooms added to the several buildings that were overcrowded. Most of these buildings will be completed in time for the opening of school next Monday. The Central high school has an enrollment of 1,700 pupils, which is over 200 more than the enrollment at the opening of school last year. Most of the teachers who spent their vacations out of the city have returned and will attend the teachers' institute in the assembly hall of the Central high school to-morrow. Superintendent Greenwood will address the teachers.

Since the annual employment of the teachers last June, several of those appointed have since handed their resignations to the board of education. Some have accepted higher positions in the schools of other cities, several of the ladies have married, while others have been compelled to resign on account of bad health. The following is a list of the teachers who will take charge of the several departments next Monday:

Will Go to West Superior, Wis. The resignation of Miss Grace Geary, Principal Longan's assistant in the Humbolidt school, was handed to the board of education yesterday morning. Miss Geary has resigned to accept a position in the West Superior, Wis., normal schools, of which Professor I. C. McNelli, formerly assistant superintendent of the public schools in Kansas City, is superintendent. She will leave for West Superior next Monday morning.

AT THE CITY HALL.

Minor Happenings of One Day in the Municipal Departments.

The water department is preparing to put everal gangs of men at work laying water several gangs of men at work laying water mains. The pipes are now being delivered upon several streets, where these improvements are contemplated. Within the next ten days work will be in progress on Reservoir avenue between Bluff and Holly, on Woodland avenue from Twenty-eighth to Thirtleth, on Howard avenue between Prospect and Wabash, on Woodland avenue between Thirty-second and Thirtleth and on Twentieth street between Mercier and Holly.

City Physician Coffin reports that subjects for vaccination are coming in very slowly. Yesterday only twenty school pu-pils were treated, and only sixty-five have called for treatment since Monday morning. He says that a great majority of the children will not apply for vaccination until actually denied admission to the public schools, which open next Monday.

The city hall will be practically deserted this afternoon, as nearly all the officials and their deputies and clerks will take ad-vantage of the half hollday and attend the Horse Show at Fairmount park.

The board of public works meets this morning, but as President Graham will be absent it is probable that nothing aside from routine business will be transacted.

To-day is payday at the city hall. All warrants were signed up yesterday, and are now ready for issuance. Mayor Jones will to-day issue a call for succial council meeting Monday night.

Business Firms Fail. Business Firms Fail.

The Fine Art Lithographing Company at 112 and 714 Wyandotte street made an assignment yesterday afternoon to S. E. Swanson. The president of the company is Albert H. Soukup. The assets of the concern amount to \$500.

E. T. Slaughter, who conducts a tin and furnace business at Thirteenth street and Grand avenue, failed yesterday. He filed three chattel deeds of trust with the recorder of deeds yesterday afternoon for the benefit of his creditors, among them the Townley Metal Company. Ralph E. Scofield, the trustee, took possession of the stock yesterday afternoon. The liabilities amount to \$1,346.

Real Estate Sales. The inclement weather yesterday put a damper on the local realty market, and few sales were closed. The majority of prospective investors are looking for small, modern residence property near the street car lines, and offer cash or one-third payments for such. car lines, and offer cash or one-third payments for such.

Lot 10, T. M. Jones' addition, was sold to Nancy E, Herring by Noah Hunt for \$1,500.

C. H. Kirshner sold a part of lot 40, Bloomfield place, to Bruce Reichelderfer for \$1,500. Lot 78 and part of lot 73, Belmont, were sold by Clara P. Buckner to William Buckner for \$3,000.

The police were notified last night of the disappearance of Byron W. Yost, a clerk in the general delivery at the postoffice, and asked to locate him. Yost has been missing several days and officer Boyle was sent to his home, 1512 Cherry street, to investigate. He found everything in good condition and the bed presenting the appearance of having been lately occupied. Yost is said to have been seen in the North end last night. His family is away from end last night. His family is away
